

Amela's Advanced Analytical Solutions

3AS

3AS

- Energy-based Digital Twinning for decision support
- Real-time insights and performance prediction
- Enriching data with physics and engineering know-how

Digital Connector Options

- Data input and process in flexible and scalable architecture
- REST API, MQTT, OPC, Apache Kafka
-
- Full access to advanced analytics result
- Reduce the total cost of ownership for clients
- Integration in client's IT-environment
- Custom-built web applications

Payment

- Pay-as-you-go
- Monthly/Annual subscription

Cyber Security

- Checkpoint Endpoint Security
- Secure TLS-connection based on best-practice standard
- Active Monitoring and periodic penetration testing and reporting by certified third party
